

Nomad Art – for private sale

Nomad Art is a long established, highly regarded Darwin art gallery, specialising in limited edition prints and textiles from northern and central Australia.

Nomad Art fills a niche market by providing high quality but accessible and affordable Indigenous and non-Indigenous art.

The Gallery features a large range of limited edition prints, fabrics and textiles, books and sculpture. Products are sourced through Aboriginal owned and operated art centres. Other artworks are sourced from northern-based artists and exhibiting artists of renown.

As a Gallery we set tight parameters for the selection stock by maintaining a policy of ethical dealings, integrity and only presenting a limited range of high quality products. Works are sourced primarily from the northern and central Australia.

Nomad Art Gallery exists in an exciting art making region, which is well-known as a major hub for Australian Indigenous art. The Gallery supplies art to discerning local, interstate, international and institutional clients who are seeking high quality affordable art for mementos, gifts, investments and collections.

Interest in art from the Top End of Australia extends internationally. As an established gallery operating from the heart of the region, Nomad Art is ideally placed to reflect new innovation and generational change.

Nomad Art Gallery complements existing Darwin galleries, by creating a significant point of difference. By specialising in limited edition prints and associated products Nomad Art has developed its own client base and can therefore work in collaboration with other like-minded galleries to promote Darwin and Parap as an art destination of note.
